

## Numeracy and Literacy Parent Workshop

Thursday 7th February 3.30pm

Mathematics  
Mastery

Accelerated  
Reader™

Dear Parents,

We cordially invite you to attend a workshop designed to provide you with strategies which you can use to help support the development of your daughter's literacy and numeracy skills.

### **Maths Mastery— Maths Watch Online Tutorials**

The Maths Mastery curriculum is designed so that students explore mathematical ideas in greater depth. The emphasis in Year 8 is to ensure that every student has a strong understanding of the basic mathematical concepts, creating a solid bank for them to call upon throughout their mathematical journey to GCSE and beyond. Lessons and tasks are structured to support and stretch students, challenging their mathematical thinking at all stages.

### **Accelerated Reader**

AR is a reading programme that helps teachers and parents support and monitor students' reading practice. It is important that all students engage in twenty minutes reading each night in order to achieve maximum benefits of the programme. When finished reading the book, students will take a short online quiz to measure how much of the book she has understood.

This is a very important meeting in our school calendar so we ask you to join us as we work in partnership to support your daughter.

Student Name: \_\_\_\_\_

Class \_\_\_\_\_

I/We will be able to attend Yes / No

***Please return this reply slip to your daughter's Form Tutor by Monday 4th February 2019***

***Thank you***
